Program Offerings at TESSI

TESSI offers a complete musical curriculum for children ranging from the first exposure to musical activities at early ages, to beginning instrumental lessons, and through to advanced skill levels in high-school (and adults too!).

Whether study of music is simply a hobby or a student is considering a career in music, we can help students reach their goals, and develop a lifelong appreciation for music-making.

Performances are a major practice motivator while learning to play an instrument, and help to build character and confidence in the student.

We place emphasis on both solo and group performance, such as piano duets, guitar ensemble, and other combos.

We schedule 4-5 public recitals each school year, and are involved in other local performances when opportunities arise. Students have a performance goal to work towards at all times.
